FASTWORKS.AI, A KSA AI COMPANY

FastWorks.AI: Sovereign AI Platform for Saudi Arabia's National Digital Future

FASTWORKS.AI – INTRODUCTION

- FastWorks.AI is a Saudi AI and Digital Transformation company dedicated to accelerating Vision 2030 and building the Kingdom's sovereign AI capabilities. Through five integrated pillars, FastWorks.AI empowers ministries, giga projects, enterprises, and citizens to adopt and scale next-generation AI and digital technologies.
- Our mission is to make world-class AI accessible to everyone in Saudi Arabia, enabling national talent to learn, innovate, and lead in the new era of intelligence.
- As the Kingdom's premier AI ecosystem, FastWorks.AI delivers training, engineering, and digital platforms that strengthen national capabilities and drive measurable impact across every sector.

WHO FASTWORKS.AI IS?

LEADERSHIP & VISION

- FastWorks.AI is a next-generation national AI powerhouse co-founded with Ascend to accelerate Saudi Arabia's digital future.
- Built on a fully integrated ecosystem that includes AI aggregation, talent development, engineering excellence, and intelligent Super Apps, FastWorks.AI is redefining how the Kingdom adopts and scales advanced artificial intelligence.
- Our mission is clear and ambitious. We deliver sovereign, trusted, and culturally aligned AI that positions Saudi Arabia as a global leader in intelligence and innovation.
- By combining world-class AI standards with Saudi-first design, FastWorks.AI enables ministries, enterprises, and smart cities to deploy secure, real-time, nation-scale AI systems that transform every sector across the Kingdom and the Gulf region.

COMPANY SCALE

- FastWorks.AI operates from its Riyadh headquarters with nationwide presence through Ascend, supported by engineering hubs for AI, cloud, and smart-city delivery, and a growing talent pipeline via the FastWorks.AI Academy.
- The company drives AI adoption across government, giga-projects, healthcare, energy, logistics, and citizen services.

FASTWORKS.AI – PLATFORM CAPABILITIES

AI Aggregation Engine

Unifies global and national AI models, data pipelines, IoT streams, and enterprise systems into one sovereign platform. Delivers real-time insights, decisions and automation aligned with Saudi data residency and cross-system intelligence.

Agentic Multi-Agent Orchestration

Coordinates AI agents, GenAI models, workflows, and human input to drive intelligent actions across ministries, enterprises, and smart-city environments. Enables context-aware automation and cross-system intelligence.

Edge-to-Cloud Interoperability

Native alignment with SDAIA, NDMO, and national cybersecurity frameworks. Provides full observability, safety controls, identity integration, and policy enforcement across all AI deployments.

Developer Experience & Operations

- Visual interface and prebuilt modules accelerate solution delivery up to 90%.
- Teams can assemble AI services, RAG pipelines, integrations, and smart-city logic without heavy custom development.

Built-In Governance & Compliance

- Native alignment with SDAIA, NDMO, and national cybersecurity frameworks.
- Provides full observability, safety controls, identity integration, and policy enforcement across all AI deployments.

FASTWORKS.AI – STRATEGIC PILLARS

FastWorks.AI delivers a fully integrated national AI ecosystem designed to accelerate Saudi Arabia's digital future. Through five powerful pillars, FastWorks.AI enables ministries, enterprises, and smart cities to adopt, scale, and operationalize world-class AI across the Kingdom.

AI Academy

A national engine for talent development that empowers the Saudi workforce with future-ready skills in AI, machine learning, data, and cloud technologies.
Through world-class curriculum, certification programs, corporate learning tracks, hands-on bootcamps, and governance reviews tailored for Saudi Arabia, the Academy builds the Kingdom's next generation of AI specialists.

Professional Services

FastWorks.AI offers deep engineering and consulting expertise across AI, cloud, and data.
From RAG pipelines and LLM integration to cloud modernization, cybersecurity, IoT integration, and managed services, FastWorks.AI delivers measurable outcomes across sectors.

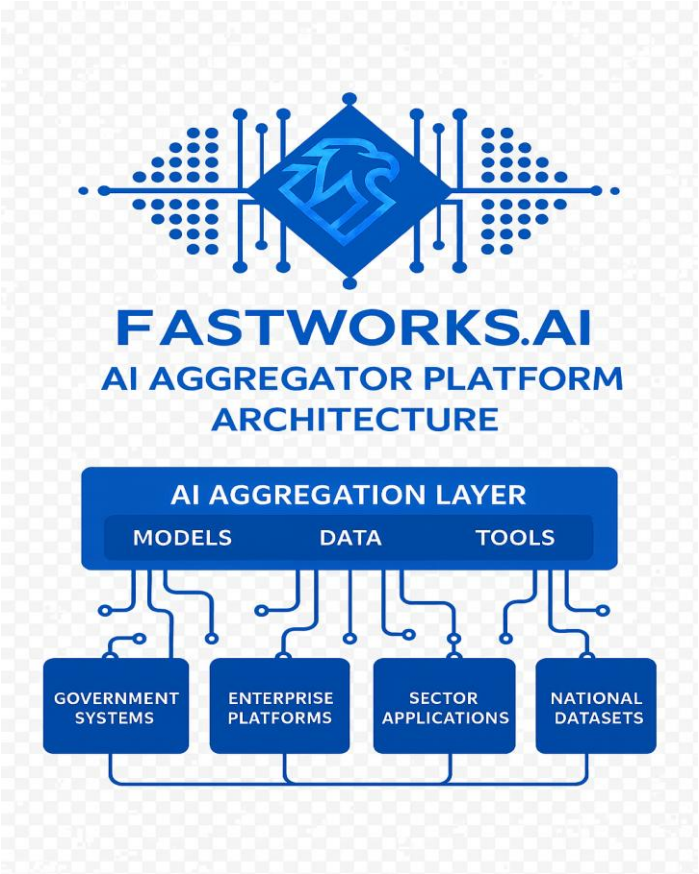
Super App Development

We build intelligent, citizen-centric Super Apps that unify digital identity, payments, services, AI assistants, and lifestyle ecosystems.
These capabilities enable ministries, enterprises, and cities to deliver smarter, more connected digital experiences across giga-projects and municipal ecosystems.

Smart-City Enablement

FastWorks.AI powers the next generation of Saudi smart cities with advanced IoT infrastructure, digital-twin engines, command-and-control platforms, mobility intelligence, and urban automation.
Our solutions enable real-time monitoring, safety, sustainability, and operational excellence across NEOM, Makkah, Red Sea, and municipal environments throughout the Kingdom.

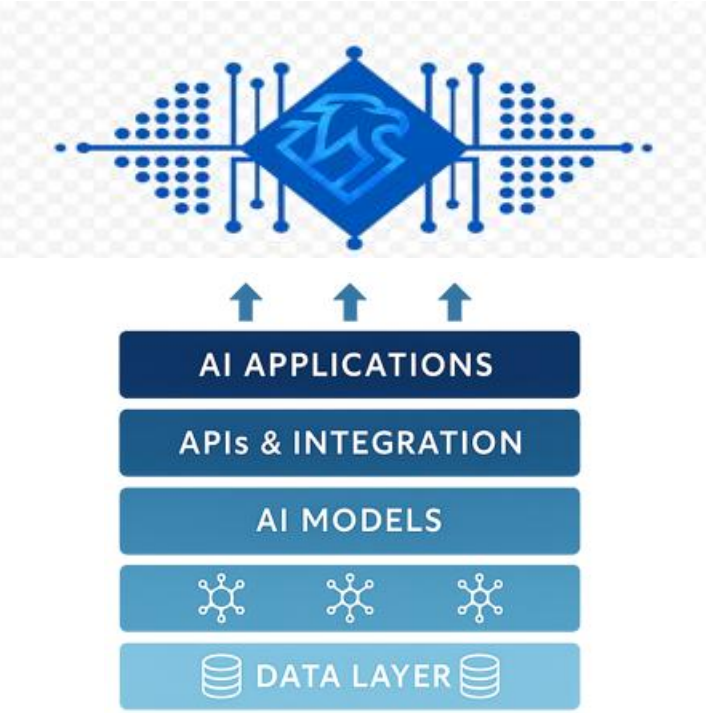
FASTWORKS.AI – AI AGGREGATOR



FastWorks.AI brings together the ***world's leading AI models***, data engines, and automation tools into one unified platform designed specifically for Saudi Arabia's digital transformation.

The architecture ***enables seamless integration*** with ministries, enterprises, and smart-city systems while providing a secure, scalable foundation for building, deploying, and managing AI solutions at national scale.

By aggregating ***global AI capabilities*** into a single intelligent ecosystem, FastWorks.AI accelerates innovation, reduces complexity, and empowers organizations to adopt AI faster and more effectively.



FASTWORKS.AI – STRATEGIC ACHIEVEMENTS & PARTNERSHIPS

National Recognition – June 26
FastWorks.AI is emerging as a flagship AI initiative, recognized for sovereign AI capabilities and alignment with Vision 2030.

Thought Leadership – September 26
FastWorks.AI shapes the future of AI in the region through leadership in aggregation, digital-twins, and data governance.

Mission-Critical Impact – 26 – 27
FastWorks.AI powers real-time intelligence across smart cities, public services, healthcare, and enterprise operations.

Strategic Partnerships – September 26
FastWorks.AI collaborates with global AI providers, cloud platforms, and engineering partners to expand national capability.
